

Pick up Hoods for Dust Collector Systems

Heavy duty pick up hoods, designed for improved productivity and improved working conditions in the construction and mining industry.

Pick up hoods for Dust Collector Systems

The ILMEG pick up hoods are used in rock drilling applications for improved productivity and improved working conditions with regards to dust. A typical application is blast hole drilling with top hammer rock drills or down the hole drills.

ILMEG pick up hoods are continuously improved and built of high quality components to ensure long, safe and economical operation.
